Patons

BOOK 935

TOTEM, DOUBLE KNIT, BARONESS, L'AMOUR, JET

35°

Rosy, cosy things, that's what babies are. Especially when you wrap them up in beautiful little clothes from this Patons book. It may be a cold world outside, but their little world is a warm, wonderful one. Thanks to a mum who knits — and knits like these!

- TOTEM**
Patons classic pure new wool yarn, in all the baby-soft colours. Totem is mothproofed and Patonised to resist shrinking.
- JET**
Pure new wool, mothproofed and Patonised to resist shrinking, Jet is a wonderfully warm yarn.
- DOUBLE KNIT**
A completely machine-washable yarn. In colours gay enough to brighten a grey day, as well as gentle, traditional baby colours.
- L'AMOUR**
A yarn with a superbly snuggly feel, being cuddly Lambswool and Angora, with Nylon added for strength. In lots of soft, muted shades.

Something warm happens when you and Patons get together

SOME IMPORTANT HINTS

IMPORTANT — DYE LOTS!

Always buy enough of the same dye lot at the one time for a complete garment, as a variation between dye lots can occur.

Retain ball bands until the garment is completely knitted, and, in the event of an enquiry concerning the purchase, submit all ball bands.

SUCCESSFUL RESULTS DEPEND ON CORRECT TENSION!

To knit garments you'll be proud of, always make a Tension Test. Correct tension brings out a further benefit of Patons exclusive Patonising process. You'll find your knitteds have maximum resistance to pilling as well as shrinkage. So you're sure of knitteds looking fresh and new through wash after wash.

Tension Test: Before you start knitting take the yarn and needles specified in the instructions, cast on 20 stitches, work 20 rows in plain smooth fabric. Lightly press work. Check the tension by placing an inch tape across the stitches. Count the exact number of stitches to 2 ins. and compare with the tension given in the instructions. If your tension is too loose, try a size finer needle. If it's too tight, try a size larger needle. If more than one size of needle is recommended in the knitting instructions, and you have altered your needles to correct the tension, corresponding alterations must be made to needles throughout the instructions.
